2nd November 2021: 10:00 a.m.

Agenda Item

5f

Byelaw Review Strategy Working Group

Purpose- Update members on the initial meetings of review group

Recommendation-

1. Members approve the strategy paper
2. Members approve development of operational plan.

Officers and members were tasked to meet to discuss the development of a proposed strategy for tackling the review of legislative byelaws which are in force across the Authority's District. During meetings members of the working group have produced the paper attached as an annex. This will form the basis for the progression of this work.

It is proposed to enact this strategy reviewing and producing byelaws for the NWIFCA district on a metier approach or by gear type where possible.

If members of the TSB approve then the group will continue with developing an operational plan to assist the practical process of review.
